Contents of volume 422

No. 1 (pp 1– 92) published October 16, 1992
No. 2 (pp 93–210) published November 19, 1992
No. 3 (pp 211–294) published December 10, 1992
No. 4 (pp 295–426) published January 25, 1993
No. 5 (pp 427–538) published February 18, 1993
No. 6 (pp 539–620) published March 3, 1993

This volume contains:

Supplement of the Deutsche Physiologische Gesellschaft, 72nd Meeting, 9–12 March 1993, München, Germany

Allard B, Lazdunski M: Nucleotide diphosphates activate the ATP-sensitive potassium channel in mouse skeletal muscle 185
Allen DG → Elliott AC
Alvarez J → Scamps F
Anno T → Yasui K
Aviv A → Kimura M

Bachar H, Haver E, Ilani A, Lichtstein D: Modulation of rat olfactory bulb mitochondrial function by atrial natriuretic peptide 204
Bajnath RB → Kansen M
Barros F, Delgado LM, del Camino D, de la Peña P: Characteristics and modulation by thyrotropin-releasing hormone of an inwardly rectifying K^+ current in patch-perforated GH_3 anterior pituitary cells 31
Bassenge E → Galle J
Bauersachs J → Galle J
Baumgartner ER → Baur B
Baur B, Baumgartner ER: Na^+-dependent biotin transport into brush-border membrane vesicles from human kidney cortex 499
Baux G → Fossier P
Beck F-X, Sone M, Dörge A, Thurau K: Effect of increased distal sodium delivery on organic osmolytes and cell electrolytes in the renal outer medulla 233
Béhé P, Sandmeier K, Meves H: The effect of arachidonic acid on the M current of NG108-15 neuroblastoma × glioma hybrid cells 120
Benndorf K: Multiple levels of native cardiac Na^+ channels at elevated temperature measured with high-bandwidth/low-noise patch clamp 506
Benoit E, Escande D: Fast K channels are more sensitive to riluzole than slow K channels in myelinated nerve fibre 536
Berggren P-O → Åmmälä C
Berweck S → Stahl F
Biber J → Hansch E
Biber J → Yagci A
Bigard A-X, Brunet A, Serrurier B, Guezennec C-Y, Monod H: Effects of endurance training at high altitude on diaphragm muscle properties 239
Bijman J → Kansen M
Bleich M → Schlatter E
Bokvist K → Åmmälä C
Boyd CAR, Crawford DH: Activation of cationic amino acid transport through system y^+ correlates with expression of the T-cell early antigen gene in human lymphocytes 87
Boyett MR → Yasui K
Brady P → Thorn P
Brick-Ghannam C → Griffiths NM
Brown AM → De Biasi M
Brunet A → Bigard A-X
Busse R → Galle J

Cairns SP → Elliott AC
Callewaert G → Heidbüchel H
Capasso G → Weinlich M
Carbone E → Pollo A
Carmeliet E → Heidbüchel H
Carmeliet E → Ito H
Chabardès D → Griffiths NM
Chang F → Yu H
Chapman RA: The effect of oximes on the dihydropyridine-sensitive Ca current of isolated guinea-pig ventricular myocytes 325
Cirelli C, Tononi G, Pompeiano M, Pompeiano O, Gennari A: Modulation of desynchronized sleep through microinjection of α_1-adrenergic agonists and antagonists in the dorsal pontine tegmentum of the cat 273
Clauss W → Fischer H
Cognard C, Rivet-Bastide M, Constantin B, Raymond G: Progressive predominance of 'skeletal' versus 'cardiac' types of excitation-contraction coupling during in vitro skeletal myogenesis 207
Rivet-Bastide M → Cognard C
Cohen IS → Yu H
Collins AJ → Freeman TC
Constantin B → Cognard C
Coraboeuf E → Coulombe A
Coulombe A, Coraboeuf E: Large-conductance chloride channels of newborn rat cardiac myocytes are activated by hypotonic media 143
Crabbé J → Granitzer M
Crawford DH → Boyd CAR
Crockard AD → McGeown JG
Curci S → Debellis L

Díaz M, Valverde MA, Higgins CF, Rucăreanu C, Sepúlveda FV: Volume-activated chloride channels in HeLa cells are blocked by verapamil and dideoxyforskolin 347
De Biasi M, Hartmann HA, Drewe JA, Taglialatela M, Brown AM, Kirsch GE: Inactivation determined by a single site in K^+ pores 354
de Jonge HR → Kansen M
de la Peña P → Barros F
Debellis L, Curci S, Frömter E: Microelectrode determination of oxyntic cell pH in intact frog gastric mucosa. Effect of histamine 253
del Camino D → Barros F
Delgado LM → Barros F
Diarra A, Sauvé R: Effect of thapsigargin and caffeine on Ca^{2+} homeostasis in HeLa cells: implications for histamine-induced Ca^{2+} oscillations 40
Dörge A → Beck F-X
Dousmanis AG, Pennefather PS: Inwardly rectifying potassium conductances in AtT-20 clonal pituitary cells 98
Drewe JA → De Biasi M
Droogmans G → Gericke M
Dudel J: Contribution of Ca^{2+} inflow to quantal, phasic transmitter release from nerve terminals of frog muscle 129

Editorial Announcement 1
Elliott AC, Cairns SP, Allen DG: Subcellular gradients of intracellular free calcium concentration in isolated lacrimal acinar cells 245
Åmmälä C, Bokvist K, Larsson O, Berggren P-O, Rorsman P: Demonstration of a novel apamin-insensitive calcium-activated K^+ channel in mouse pancreatic B cells 443
Enomoto K-I → Furuya K
Escande D → Benoit E
Eusebi F → Grassi F

Favero TG, Pessah IN, Klug GA: Prolonged exercise reduces Ca^{2+} release in rat skeletal muscle sarcoplasmic reticulum 472
Firsov DL → Natochin YV
Fischer H, Kreusel K-M, Illek B, Machen TE, Hegel U, Clauss W: The outwardly rectifying Cl^- channel is not involved in cAMP-mediated Cl^- secretion in HT-29 cells: evidence for a very-low-conductance Cl^- channel 159
Fischer H → Illek B
Forgo J → Hansch E
Fossier P, Baux G, Trudeau L-E, Tauc L: Pre- and postsynaptic actions of nifedipine at an identified cholinergic central synapse of *Aplysia* 193
Freeman TC, Collins AJ, Heavens RP, Tivey DR: Genetic regulation of enterocyte function: a quantitative in situ hybridisation study of lactase-phlorizin hydrolase and Na^+-glucose cotransporter mRNAs in rabbit small intestine 570
Fröbe U → Hirsch J
Fröbe U → Schlatter E
Frömter E → Debellis L
Frömter E → Seki G
Frömter E → Seki G

Fucile S → Grassi F
Furuya K, Enomoto K-I, Yamagishi S: Spontaneous calcium oscillations and mechanically and chemically induced calcium responses in mammary epithelial cells 295

Gallacher DV → Thorn P
Galle J, Bauersachs J, Bassenge E, Busse R: Arterial size determines the enhancement of contractile responses after suppression of endothelium-derived relaxing factor formation 564
Gasa S → Yamashita H
Gebauer B → Stahl F
Gennari A → Cirelli C
Gericke M, Droogmans G, Nilius B: Thapsigargin discharges intracellular calcium stores and induces transmembrane currents in human endothelial cells 552
Gibson LM, Wendt IR, Stephenson DG: Contractile activation properties of ventricular myocardium from hypothyroid, euthyroid and juvenile rats 16
Giovannelli A → Grassi F
Glitsch HG, Tappe A: The Na^+/K^+ pump of cardiac Purkinje cells is preferentially fuelled by glycolytic ATP production 380
Granitzer M, Nagel W, Crabbé J: K^+ recirculation in A6 cells at increased Na^+ transport rates 546
Grassi F, Giovannelli A, Fucile S, Eusebi F: Activation of the nicotinic acetylcholine receptor mobilizes calcium from caffeine-insensitive stores in C2C12 mouse myotubes 591
Greger R → Schlatter E
Griffiths NM, Brick-Ghannam C, Siaume-Perez S, Chabardès D: Effect of prostaglandin E_2 on agonist-stimulated cAMP accumulation in the distal convoluted tubule isolated from the rabbit kidney 577
Griguer C, Sans A, Lehouelleur J: Non-typical K^+-current in cesium-loaded guinea pig type I vestibular hair cell 407
Groot JA → Kansen M
Guerra L → Vilella S
Guezennec C-Y → Bigard A-X
Gwathmey JK, Morgan JP: Sarcoplasmic reticulum calcium mobilization in right ventricular pressure-overload hypertrophy in the ferret: relationships to diastolic dysfunction and a negative treppe 599

Haimann C, Magistretti J, Pozzi B: Sodium-activated potassium current in sensory neurons: a comparison of cell-attached and cell-free single-channel activities 287
Magistretti J → Haimann C
Hanaoka K, Sakai O, Imai M, Yoshitomi K: Mechanisms of calcium transport across the basolateral membrane of the rabbit cortical thick ascending limb of Henle's loop 339
Hansch E, Forgo J, Murer H, Biber J: Role of microtubules in the adaptive response to low phosphate of Na/P_i cotransport in opossum kidney cells 516
Hara S, Kuba K: Mechanical modulation of a voltage-dependent non-inactivating K^+ current in cultured bullfrog sympathetic neurones 305
Hartmann HA → De Biasi M
Harvey RD: Effects of stilbenedisulfonic acid derivatives on the cAMP-regulated chloride current in cardiac myocytes 436
Hashimoto A, Hazama A, Kotera T, Ueda S, Okada Y: Membrane capacitance increases induced by histamine and cyclic AMP in single gastric acid-secreting cells of the guinea pig 84
Haver E → Bachar H
Hazama A → Hashimoto A
Heaton RC, Taggart MJ, Wray S: The effects of intracellular and extracellular alkalinization on contractions of the isolated rat uterus 24
Heavens RP → Freeman TC
Hegel U → Fischer H
Heidbüchel H, Callewaert G, Vereecke J, Carmeliet E: Acetylcholine-mediated K^+ channel activity in guinea-pig atrial cells is supported by nucleoside diphosphate kinase 316
Heinemann SH, Terlau H, Imoto K: Molecular basis for pharmacological differences between brain and cardiac sodium channels 90
Helmle-Kolb C → Vilella S
Higgins CF → Díaz M
Hirsch J, Leipziger J, Fröbe U, Schlatter E: Regulation and possible physiological role of the Ca^{2+}-dependent K^+ channel of cortical collecting ducts of the rat 492
Hirsch J → Schlatter E
Hirst BH → Matthews CJ
Hisada T, Singer JJ, Walsh JV Jr.: Aluminofluoride activates hyperpolarization- and stretch-activated cationic channels in single smooth muscle cells 397
Hisada T, Walsh JV Jr., Singer JJ: Stretch-inactivated cationic channels in single smooth muscle cells 393
Hoogeveen AT → Kansen M
Horowitz M, Meiri U: Central and peripheral contributions to control of heart rate during heat acclimation 386

Ikeda SR, Soler F, Zühlke RD, Joho RH, Lewis DL: Heterologous expression of the human potassium channel Kv2.1 in clonal mammalian cells by direct cytoplasmic microinjection of cRNA 201
Ilani A → Bachar H
Illek B, Fischer H, Machen TE: Intracellular Ca^{2+} signalling is modulated by K^+ channel blockers in colonic epithelial cells (HT-29/B6) 48
Illek B → Fischer H
Illner H, McGuigan JAS, Lüthi D: Evaluation of mag-fura-5, the new fluorescent indicator for free magnesium measurements 179
Imai M → Hanaoka K
Imoto K → Heinemann SH
Inoue K → Nakazawa K
Ishikawa M → Yamashita H
Ito H, Vereecke J, Carmeliet E: Intracellular protons inhibit inward rectifier K^+ channel of guinea-pig ventricular cell membrane 280
Itokawa Y → Kondo H
Izawa T → Yamashita H

Jessen C → Nielsen B
Joho RH → Ikeda SR
Jongsma HJ → Takens-Kwak BR

Kamiya K → Yasui K
Kansen M, Bajnath RB, Groot JA, de Jonge HR, Scholte B, Hoogeveen AT, Bijman J: Regulation of chloride channels in the human colon carcinoma cell line HT29.cl19A 539
Kimura M, Aviv A: Regulation of the cytosolic pH set point for activation of the Na^+/H^+ antiport in human platelets: the roles of the Na^+/Ca^{2+} exchange, the Na^+-K^+-$2Cl^-$ cotransport and cellular volume 585
Kinne RKH → Weinlich M
Kirsch GE → De Biasi M
Klug GA → Favero TG
Kodama I → Yasui K
Koh D-S, Vogel W: A method for rapid exchange of solutions at membrane patches using a 10-μl microcapsule 609
Kolb H-A → Ngezahayo A
Komabayashi T → Yamashita H
Kondo H, Miura M, Itokawa Y: Antioxidant enzyme systems in skeletal muscle atrophied by immobilization 404
Kotera T → Hashimoto A
Kreusel K-M → Fischer H
Kuba K → Hara S
Kunze DL → Vaca L

Laird DW → Lal R
Lal R, Laird DW, Revel J-P: Antibody perturbation analysis of gap-junction permeability in rat cardiac myocytes 449
Langenbeck-Groh G → Stahl F
Larsen EH → Novak I
Larsson O → Ämmälä C
Lazdunski M → Allard B
Lehouelleur J → Griguer C
Leinders T, van Kleef RGDM, Vijverberg HPM: Divalent cations activate small- (SK) and large-conductance (BK) channels in mouse neuroblastoma cells: selective activation of SK channels by cadmium 217
Leinders T, Vijverberg HPM: CA^{2+} dependence of small Ca^{2+}-activated K^+ channels in cultured N1E-115 mouse neuroblastoma cells 223
Leipziger J → Hirsch J
Lepple-Wienhues A → Stahl F
Lewis DL → Ikeda SR
Llopis J → Thorn P
Lopatin AN → Nichols CG
Lovallo M → Pollo A
Lovick TA → Wang WH
Lüthi D → Illner H

Machen TE → Fischer H
Machen TE → Illek B
Markstahler U → Schlatter E
Maruyama Y: Excess divalent cations activate Ca^{2+}-mobilizing receptors in pancreatic acinar cells 476
Matsuda H → Shioya T
Matthews CJ, McEwan GTA, Redfern CPF, Thomas EJ, Hirst BH: Bradykinin stimulation of electrogenic ion transport in epithelial layers of cultured human endometrium 401
McEwan GTA → Matthews CJ
McGeown JG, Crockard AD: Lymphocyte subsets recirculate from blood to lymph at different rates in conscious sheep 533
McGeown JG: Splanchnic nerve stimulation increases the lymphocyte output in mesenteric efferent lymph 558
McGuigan JAS → Illner H
Meiri U → Horowitz M
Merot J → Poncet V
Merriam LA → Parsons RL
Meves H → Béhé P
Miura M → Kondo H
Monod H → Bigard A-X
Morgan JP → Gwathmey JK
Müller M: Morphological and functional consequences of chronic epilepsy in rat hippocampal slice cultures 418
Murer H → Hansch E
Murer H → Vilella S
Murer H → Yagci A

Nagel W → Granitzer M
Nakazawa K, Watano T, Inoue K: Mechanisms underlying facilitation by dopamine of ATP-activated currents in rat pheochromocytoma cells 458
Natochin MYu → Natochin YV
Natochin YV, Shakhmatova EI, Firsov DL, Parnova RG, Reznik LV, Natochin MYu: Does the gradual hydroosmotic response to antidiuretic hormone depend on intracellular cAMP accumulation or on the formation of intramembrane particle aggregates? 3
Ngezahayo A, Kolb H-A: Gap junctional conductance tunes phase difference of cholecystokinin evoked calcium oscillations in pairs of pancreatic acinar cells 413
Nichols CG, Lopatin AN: Trypsin and α-chymotrypsin treatment abolishes glibenclamide sensitivity of K_{ATP} channels in rat ventricular myocytes 617
Nielsen B, Jessen C: Evidence against brain stem cooling by face fanning in severely hyperthermic humans 168
Nilius B → Gericke M
Nilius B → Scamps F
Noma A → Shioya T
Novak I, Pedersen PS, Larsen EH: Chloride and potassium conductances of cultured human sweat ducts 151

Ohno H → Yamashita H
Ohno-Shosaku T, Yamamoto C: Identification of an ATP-sensitive K^+ channel in rat cultured cortical neurons 260
Yamamoto C → Ohno-Shosaku T
Okada Y → Hashimoto A

Parnova RG → Natochin YV
Parsons RL, Merriam LA: Galanin activates an inwardly rectifying potassium conductance in mudpuppy atrial myocytes 410
Pedersen PS → Novak I
Pennefather PS → Dousmanis AG
Pessah IN → Favero TG
Petersen OH → Thorn P
Pollo A, Lovallo M, Sher E, Carbone E: Voltage-dependent noradrenergic modulation of ω-conotoxin-sensitive Ca^{2+} channels in human neuroblastoma IMR32 cells 75
Pompeiano M → Cirelli C
Pompeiano O → Cirelli C
Poncet V, Merot J, Poujeol P: A calcium-permeable channel in the apical membrane of primary cultures of the rabbit distal bright convoluted tubule 112
Poujeol P → Poncet V
Pozzi B → Haimann C

Raymond G → Cognard C
Redfern CPF → Matthews CJ
Revel J-P → Lal R
Reznik LV → Natochin YV
Robbins J: Agonist-induced inhibition of inositol-trisphosphate-activated $I_{K(Ca)}$ in NG108-15 neuroblastoma hybrid cells 364
Rodrigo GC: The Na^+-dependence of Na^+-activated K^+-channels ($I_{K(Na)}$) in guinea pig ventricular myocytes, is different in excised inside/out patches and cell attached patches 530
Rorsman P → Ämmälä C
Rucăreanu C → Díaz M

Sakai O → Hanaoka K
Sandmeier K → Béhé P
Sans A → Griguer C
Sato N → Yamashita H
Sato Y → Yamashita H
Sauvé R → Diarra A
Scamps F, Nilius B, Alvarez J, Vassort G: Modulation of L-type Ca channel activity by P_2-purinergic agonist in cardiac cells 465
Schilling WP → Vaca L
Schlatter E, Bleich M, Hirsch J, Markstahler U, Fröbe U, Greger R: Cation specificity and pharmacological properties of the Ca^{2+}-dependent K^+ channel of rat cortical collecting ducts 481
Schlatter E → Hirsch J
Scholte B → Kansen M
Seki G, Frömter E: Acetazolamide inhibition of basolateral base exit in rabbit renal proximal tubule S2 segment 60
Seki G, Frömter E: Acetazolamide inhibition of basolateral Cl^-/HCO_3^- exchange in rabbit renal proximal tubule S3 segment 55
Sepúlveda FV → Díaz M
Serrurier B → Bigard A-X
Shakhmatova EI → Natochin YV
Sher E → Pollo A
Shioya T, Matsuda H, Noma A: Fast and slow blockades of the inward-rectifier K^+ channel by external divalent cations in guinea-pig cardiac myocytes 427
Siaume-Perez S → Griffiths NM
Singer JJ → Hisada T
Singer JJ → Hisada T
Soler F → Ikeda SR
Sone M → Beck F-X
Stahl F, Gebauer B, Lepple-Wienhues A, Langenbeck-Groh G, Berweck S, Wiederholt M: Characterization of acetylcholine- and endothelin-induced calcium entry in cultured human ciliary muscle cells 105
Stephenson DG → Gibson LM

Taggart MJ → Heaton RC
Taglialatela M → De Biasi M
Takens-Kwak BR, Jongsma HJ: Cardiac gap junctions: three distinct single channel conductances and their modulation by phosphorylating treatments 198
Tappe A → Glitsch HG
Tauc L → Fossier P
Terlau H → Heinemann SH
Thomas EJ → Matthews CJ
Thorn P, Brady P, Llopis J, Gallacher DV, Petersen OH: Cytosolic Ca^{2+} spikes evoked by the thiol reagent thimerosal in both intact and internally perfused single pancreatic acinar cells 173
Thurau K → Beck F-X
Tivey DR → Freeman TC
Tononi G → Cirelli C
Toyama J → Yasui K
Trudeau L-E → Fossier P

Ueda S → Hashimoto A

Vaca L, Schilling WP, Kunze DL: G-Protein-mediated regulation of a Ca^{2+}-dependent K^+ channel in cultured vascular endothelial cells 66
Valverde MA → Díaz M
van Kleef RGDM → Leinders T
Vassort G → Scamps F
Vereecke J → Heidbüchel H
Vereecke J → Ito H
Vijverberg HPM → Leinders T
Vijverberg HPM → Leinders T
Vilella S, Guerra L, Helmle-Kolb C, Murer H: Aldosterone actions on basolateral Na^+/H^+ exchange in Madin-Darby canine kidney cells 9
Vogel W → Koh D-S

Walsh JV Jr. → Hisada T
Walsh JV Jr. → Hisada T
Wang WH, Lovick TA: Inhibitory serotonergic effects on rostral ventrolateral medullary neurons 93
Watano T → Nakazawa K
